Free Palestine

Stop the sale of weapons and military equipment to **Israel**
Withdraw the Norwegian **Oil Fund** from the occupation

Stop the genocide!

The ongoing genocide against Palestinians is yet another tragic development in Israel's long and brutal occupation, and repression of the Palestinian people. Since 1948, Palestinians have been subjected to ethnic cleansing and persecution. Lack of access to basic needs such as food, water and medicine is catastrophic.

Rødt believes Norway can, and must, do more.

With the help of massive public engagement, Rødt's proposal to recognize Palestine as an independent state was passed in parliament. However, Arbeiderpartiet and the conservatives continue to repeal proposals to boycott Israel and withdraw the Oil Fund. For Norway to stand up for Palestine, we need a strong Rødt.

RØDT WORKS FOR:

- Withdrawing the Oil Fund from Israel. Norway should not profit from genocide and occupation.
- A complete economic, cultural and academic boycott of Israel.
- Ending all Norwegian weapons exports to Israel. Norwegian weapons and parts should not be used by Israel.
- Defend international law.
- Norway must sign the UN's Apartheid Convention.
- War criminals, both Israeli and others, should be prosecuted.
- Norway must support the rebuilding of Palestinian society.

Join the fight,
join Rødt!
